

UPCOMING DATA CENTER TRAINING OPPORTUNITIES!!

National Continuous Quality Improvement Seminars: Measuring Placement Stability

State and county multidisciplinary teams are invited to participate in this upcoming 2 part webinar series.

The seminar is designed to help child welfare administrators support continuous quality improvement as it relates to placement stability, particularly in the context of performance improvement plans. At the end of the seminar, participants can expect to understand best practices for measuring change over time in placement stability. Child welfare administrators will also learn how to relate the current CFSR placement stability measures into these best practices.

The Continuous Quality Improvement Series is aimed at reinforcing analytic thinking in dealing with current topics of program interest to states and counties.

DATE:	Part I	Monday, July 13, 2009, 1:00 to 2:30 EST
	Part II	Monday, July 27, 2009, 1:00 to 2:30 EST
